

## PUTS BLAME ON RETAILER.

Flint Says Tariff Does Not Cause High Prices.

Effect of Duty on Price to Consumer Small.

Senate Makes Headway Considering Schedules.

(ASSOCIATED PRESS NIGHT REPORT.) WASHINGTON, May 11.—(Exclusive Dispatch.) The tariff bill today, the amendments of the Committee on Finance being upheld in the senate by substantial majorities.

A feature of the session was a general discussion concerning the great disparity between wholesale and retail prices. Republican senators declared this difference was so great as to demonstrate that the duty levied by a protective tariff had no effect on the price paid by the consumer. This feature of the discussion was precipitated by Senator Scott, himself a glass manufacturer.

The schedule covering the products of lead was passed over upon the suggestion of Senator Aldrich because he said the Finance Committee desired to make some changes in the duties as previously recommended. The committee's amendment stipulated that the House duty of one-half cent a pound on refined nitrate of salt peter was agreed to. It is understood that that product will be placed upon the free list.

Mr. Aldrich then requested an agreement to the committee amendment increasing the duty on all salts of antimony from 50 cents to 100 cents, stating that the proposed duty was the rate of both the Dingley and the Corman bills. The section relating to salts of antimony was agreed to as enacted.

On motion of Mr. Aldrich, the section relating to soap was amended so as to place a duty of 50 per cent. ad valorem on perfume soap, which he said was for the purpose of temporarily, as was also the schedule relating to mica.

CRUDE SULPHUR FREE. The House provision on sulphur further was amended so as to place crude sulphur on the free list.

The section relating to limestone rock asphalt was passed over temporarily, as was also the schedule relating to mica.

Mr. Newlands suggested the appointment of a special body to inquire into the differences in wholesale and retail prices so that Congress might have proper information. He said he had much information to illustrate the great difference in wholesale and retail prices. Senator Flint said he had in mind an instance a case of a rator, the manufacturer's wholesale price of which was \$2.50 a dozen, which sold for \$2 to consumers. Glover, he said, manufactured for \$1 a dozen, sold for \$1.50 a pair, or \$3 a dozen. These high prices, he said, had nothing to do with the protective tariff because, compared with the retail price, the tariff charges were small.

"Prices can be produced here to show," said Mr. Flint, "that the tariff merchants make a larger percentage of profit than in other line of business. I understand to say that if there were no duty on Haviland china that article would sell no cheaper than today."

Mr. McLaughlin defended the retail dealers against the charge of extortion, saying retailers would lose their trade if they undertook to charge too much. He said the high prices resulted from the tariff.

Mr. Cummins of Iowa offered several amendments to the window-glass schedule, saying they were intended to prevent in the future any combination of putting up prices. Without acting on the window-glass schedule, the senate adjourned.

ROBBERY AT FAIRMONT. Detectives baffled by disappearance of \$2500 from Baggageman's Desk.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, May 11.—(Exclusive Dispatch.) Completely baffled are detectives at San Francisco and Taylor in their efforts to unravel the mystery surrounding the theft of \$2500 in cash from the desk of A. H. Henderson, head baggageman at the Fairmont Hotel, between the hours of 7 and 9 o'clock this morning. In addition to that in cash the robbers also secured three certificates for 1000 shares of the Austin Hanager Mining Company, 50 shares of the Pioneer Extension Mining Company and a bank book showing a deposit of \$500.

The robbery was reported at the Central Station this morning and detectives were assigned to the case at once. Though they have worked almost incessantly, there have been no arrests.

The money, Henderson says, was the property of guests of the hotel, who had turned it in to him to purchase tickets and defray other expenses. The mining stock and bank book, he said, were his own.

BRANDENBURG YIELDS. SAN FRANCISCO, May 11.—(Brigh-ton Brandenburg, the newspaper man and magazine writer, charged with grand larceny in connection with the sale to the New York Times of an article purporting to have been written by Grover Cleveland, and who stated the edition of a writ of extradition last week by habeas corpus proceedings, created surprise today when the hearing before Judge Dwyer, presiding, was adjourned without further resistance. Thereupon, the writ of habeas corpus obtained in his behalf was dismissed. Brandenburg will go back to New York for trial with Detective Fitzsimmons of that city who said here for him by the New York Herald.

HAZEL MOORE IN OAKLAND. OAKLAND, May 11.—Hazel Moore, a woman attributed part of the blame for the downfall of former Assistant U. S. Attorney General, now accused of embezzling \$10,000 from the estate of her mother's name after her death. Later her mother telephoned to Chief of Police Wilson, asking that he make

## DANCES TO HER DEATH.

Chicago Girl Disregards Warning and Waits Until She Drops.

(ASSOCIATED PRESS NIGHT REPORT.) CHICAGO, May 11.—Marie Fron, 30 years old, danced herself to death in a public dance hall last night, according to the verdict of a coroner's jury today.

The girl possessed a full constitution, but waiting was a mania with her. She was warned by her parents not to exert herself, but when the music started she forgot the warning and danced continuously all evening.

Then she was carried out of the hall and died at a hospital.

SCANDAL.

## SOLON ORDERED FROM SESSIONS.

MICHIGAN SPEAKER TELLS DETROIT MAN TO GO.

Legislator Suspected of Attention to Wife of Journal Clerk Is Warned Not to Return to Seat in Legislature—Representatives Sit by in Amazement.

(BY DIRECT WIRE TO THE TIMES.) LANSING (Mich.), May 11.—(Exclusive Dispatch.) The first act on the part of any officer of the Legislature in connection with the story of scandal which has aroused Michigan lawmakers and Lansing residents since Sunday, came tonight when Representative D. Z. Curtis of Detroit was asked by Speaker Campbell to leave the House and told not to return again during the present session.

The scene in the House, which amazed the other Representatives as Campbell ushered Curtis down an aisle, followed an incident of a minute before, Sidney Hall, journal clerk in the House, had entered in the middle aisle and as he passed Curtis' desk, threw a penetrating look at the Detroit Assemblyman.

Campbell left the chair immediately. Going on the floor he spoke to Curtis and after the Representative arose from his seat and started to accompany him, the presiding officer repeated a warning which had already been served on the Detroit man.

It has been rumored that Curtis has been paying attention to Hall's wife and that Hall was likely to demand some explanation of the Detroit Representative, following the publication of an article in a Detroit paper Sunday, even though no names were mentioned.

Hall, when the Representatives regard as having been brought into the matter through no fault of his own, went to his home to vote. It is said that he unexpectedly returned to Lansing and discovered Curtis at his home.

GRAND JURY FOR HASKELL. Judge Denies Motion of Defense to End Inquiry and Give Instructions.

(ASSOCIATED PRESS NIGHT REPORT.) TULSA (Okla.), May 11.—The special Federal grand jury called to reinvestigate the Muskogee town lot conspiracy case was completed today and instructed by Judge Marshall.

The motion of the defense to end the inquiry, on the grounds that Congress failed to designate any means of impeaching a Federal grand jury conspiracy case was completed today and instructed by Judge Marshall.

The former grand jury was drawn under the present laws of Oklahoma. The indictment was returned against Gov. Haskell and six co-defendants were quashed on the ground the grand jury should have been drawn under the laws in force at the time of the alleged conspiracy.

ABRUZZI RECKLESS. Duke Said to Have Attempted to Kill Himself on Way to India.

(ASSOCIATED PRESS DAY REPORT.) ROME, May 11.—Court circles are agitated over sensational reports that have reached the government about the Duke of Abruzzi.

It is related on good authority that in one of the fits of depression to which the Duke has become subject of late, he attempted to kill himself with a revolver on the way to India, but was saved by a member of his suite, whose suspicion had been aroused and who had kept a vigilant watch on him.

Letters from members of the expedition report that the Duke is utterly reckless.

ARGUE BROWN CASE. SAN FRANCISCO, May 11.—The opening argument for the prosecution in the case of Attorney Luther Brown, charged with having kidnaped Fremont Older, managing editor of the Bulletin, in September, 1907, was made this morning by Asst. Dist. Atty. William Hoff Cook before Judge Dunne of the Superior Court.

He reviewed the evidence adduced to show that after the arrest of Older on a charge of criminal libel by officers from Los Angeles, an attempt was made to rush him to the southern city without affording him an opportunity to procure legal aid. In reply for the defense, Attorney Bert Schlegel ridiculed the idea that a man as strong as Older could be kidnapped in broad daylight in San Francisco. He pronounced the indictment "unique and absurd," and emphasized the character of the defendant. At the afternoon session Cook closed for the State. After the judge's charge the case will be submitted to the jury.

MARION CRAWFORD'S WILL. SORRENTO, May 11.—The will of F. Marion Crawford, the American novelist, who died here April 3, expresses the desire that his yacht and the villa Sant'Angelo be sold, and that the testator's body be buried in the Sant'Angelo Cemetery.

## MIND CURE IS OLD AS PLATO.

Doctor's Assertion Attack on Emmanuel Movement.

Theory Is Dogma Without Scientific Support.

Brain Healthy When Other Organs Are Right.

(ASSOCIATED PRESS NIGHT REPORT.) WASHINGTON, May 11.—At the opening session of the twenty-fourth annual meeting of the Association of American Physicians here today, Dr. Victor C. Vaughan, of Ann Arbor, Mich., president of the association, in his annual address, made an assertion which is regarded as an attack on the Emmanuel movement.

There was nothing in the dualistic doctrine, he contended, to justify the founding of any new cult.

"Take the Emmanuel Physical Basis of Life," Dr. Vaughan said, "that has been heard of late concerning the influence of the mind upon the body. That assumption, he said, 'was as old as the philosophy of Plato.' It always has been maintained as a dogma without scientific support and has led to no scientific fact.

Every attempt to apply it to the treatment of disease, he asserted, had led to the development of conscious or unconscious charlatanry and resulted in more or less marked atavism. Medical observation and scientific study, he said, had shown that healthy cerebral conditions were to be found only when the brain was properly influenced by normal functions of all the co-related organs.

"We know equally," said he, "of the influence of the brain on the other organs, and the fact that impulses may be started in the brain through any of the five senses has been shown to unfavorably influence the activities of the co-related organs."

"And for centuries the medical profession has employed this physiological principle in the treatment of disease."

ARMY AERONAUTS GO WEST. Cannot Make Tests at Fort Myer and Will Experiment at Fort Omaha.

(ASSOCIATED PRESS NIGHT REPORT.) WASHINGTON, May 11.—Owing to the fact that Congress has provided funds for the construction of a gas plant and balloon house at the Fort Myer aerodrome, Gen. James Allen, chief of the signal corps, has been forced to change his plans for the aerodrome and will experiment at Fort Omaha.

The army motor balloon No. 1, purchased last fall, will be shipped immediately to Fort Omaha, where a hydrogen gas plant and a hanger, or balloon house, have been erected.

Within ten days the balloon detachment will be at Fort Omaha, where Lieut. Winter, Lieut. Bamberger and Lieut. Dickinson of the aerodrome will be in the meantime free flights will be made in the signal corps spherical balloon No. 1, which has a capacity of 25,000 cubic feet of gas and can carry three men.

Gen. Allen had planned to conduct night experiments with the dirigible at Fort Myer, including tests with wireless telephone and telegraph. The dirigible will be taken to the aerodrome in connection with the various tests to demonstrate the feasibility of using dirigibles for purposes of attack.

LUMBER RATES LOWER. RAILWAYS LOSE.

(ASSOCIATED PRESS DAY REPORT.) WASHINGTON, May 11.—Two decisions of importance to the railway and lumber interests of the Northwest were handed down today by the Interstate Commerce Commission. The complainants against the railroads brought suit to compel the railroads to lower rates on lumber.

The commission ruled that the railroads were to be lowered to the rates established in the Spokane case. The differences between the rates on lumber and other commodities were an average of 2 1/2 cents a hundred pounds. In the opinion announced today, the commission ordered that the differences be established by August next. This will lower rates on all products from the Montana mills.

ARTISTS TO FEDERATE. MEET AT CAPITAL.

(ASSOCIATED PRESS NIGHT REPORT.) WASHINGTON, May 11.—Architects, artists, landscape gardeners, sculptors, men of science and others from organizations intended for the promotion of art, met in convention here today to form a national art federation.

The delegates, who were here today to discuss the proposed art federation, were met by the delegation. Senator Newlands of Nevada, in speaking of his bill for the creation of the Government Bureau of Art, declared that the President Roosevelt treasured somewhat upon the prerogatives of the legislative branch of the government by appointing without authority a council of arts, which would pass upon the designs for contemplated government structures.

Congress, he said, had resented this interference, and the council had gone out of existence. This afternoon the delegates were received in the East Room by President and Mrs. Taft.

WASHINGTON BRIEFS. Health Resort for Troops.

PHILADELPHIA, May 11.—From the Philippines came a novel suggestion by Col. James Hamilton Lewis, the recent candidate for Governor of Illinois, that the United States army should establish a health resort for the Philippine army in the Philippines. He would thus avoid the yearly expenditure of \$1,000,000 for the transport of troops from the islands.

Demurrage Hearing. WASHINGTON, May 11.—The Interstate Commerce Commission will give a public hearing on the proposed uniform code of demurrage rules in this city June 4 and 5. Persons interested in the rules may present their views orally or in the form of briefs.

To Guard Summer Capital. WASHINGTON, May 11.—Preparations are being made for the guarding of President Taft's summer home at Camp A. M. Lusk.

## NIGHT RIDERS CONVICTED.

Fourteen Men Given Sentences of Ten Days and Fines of \$500 Each.

(ASSOCIATED PRESS NIGHT REPORT.) WAVERLY (Tenn.), May 11.—A verdict of guilty was returned today in the case of the fourteen men charged with being members of a night rider's band, and with whipping Judge J. M. Reese on October 15, 1908.

The punishment was fixed at ten days in jail and a fine of \$500 each. After the verdict was announced the defendants shook hands with each other and tonight they played the banjo and danced in their cells.

SPLITTING HAIRS. MINE SHOULD SHOW VALUE.

COURT RULES THAT STOCK MUST HAVE BACKING.

Promoters in Kansas City Fraud Suit Contend That They Sold Shares in Promising Enterprise and Not Interest in Property—Judge Says Distinction Too Refined.

(ASSOCIATED PRESS NIGHT REPORT.) KANSAS CITY (Mo.), May 11.—In the trial in the Federal Court here today of the Horn Brothers, Ray and May and S. H. Nizer, charged with using the mails to defraud in promoting the "Two Queens" group of mines in Arizona, James B. Lynch of Philadelphia produced letters, circulars and newspapers sent to him by the promoters. These stated that the mine was in operation and that one was being shipped in paying quantities. Lynch said he bought 1100 shares of stock on representations made in the advertising matter.

J. H. Deane of Saginaw, Mich., testified that he had bought stock on the installment plan, paying \$2 a month.

When Dist. Atty. Van Valenburgh offered as evidence a printed circular describing the mining property, Judge Chester Krum, counsel for the promoters, objected.

It is the value of the stock that is being questioned and not the value of the property," he declared. "The purchasers were solicited to buy stock, not to buy the mine. The circulars for stock were filed according to agreement. There is a speculative element in buying mining stock. If there is a bright prospect persons are willing to pay for a chance to have a large return."

"Your distinctions are too refined," Judge Phillips replied, in overruling the objection. "I have always understood that a stockholder of a corporation has some interest in the property of the company. The value of the property is the inducement that causes persons to buy stock."

TRYING STOCKTON COUNCILMAN. C. D. Clarke Testifies He Considered Request for Loan a Hold-up.

(ASSOCIATED PRESS NIGHT REPORT.) STOCKTON, May 11.—The taking of testimony in the trial of Councilman W. T. Shepard of this city, accused by the grand jury of malfeasance in office, began before a jury in the Superior Court this morning. Judge Smith presiding. In his opening statement Dist. Atty. J. H. Clark said he would prove that the accused had used his official position to extort loans from various saloon men and corporation heads by the use of threats of adverse action upon matters of interest to them.

The grand jury charged that the accused had forced a bogus corporation and sold shares at \$100 each to saloon men and heads of corporations, the stock being valueless.

An effort on the part of the prosecution to secure from Manager C. D. Clarke of the California Navigation and Improvement Company an admission that he had loaned Shepard \$100, because he feared hostile action of the latter, was rejected by the jury.

Shepard had before that body, objections to all questions along that line were sustained but Clark said that he would not have loaned the money to Shepard had he not been a Councilman. He declared it a personal matter and that he would not discuss it after noon and promises to be "hard fought."

At afternoon session the prosecution secured from Mr. Clarke the admission that he regarded as a "hold-up" Shepard's application for a loan. It was also brought out that when Clarke purchased of Shepard a share of stock in the Todman Paint Company, he repaid Shepard a loan taken advantage of his official position as Councilman. Clarke's company being a petitioner. The stock, however, Clarke declared, was not a loan, but the company's, the signing of the company's name and affixing his name as manager being done by inadvertence.

MISSOURI HOUSE STANDS PAT. Refuses to Consider Senate Amendments to Statewide Prohibition Measure.

(ASSOCIATED PRESS NIGHT REPORT.) JEFFERSON CITY (Mo.), May 11.—The Missouri House refused today to consider the Senate amendments to the State-wide prohibition resolution, and sent it back to the upper house, asking that body to recede. As the Senate probably will decline to give up its changes in the measure, a conference committee will be appointed. The Senate amendments to the resolution, which provides for a popular vote on the constitutional amendment were the first erased by the House, provided that the amendment, if adopted, would not become effective until 1913. The second was a tax rider, increasing the tax on beer from 10 cents to 100 per cent. over the present rate.

AFRICANS KILL ENGLISHMAN. Official of Northern Nigeria and Twelve Native Policemen Slain in Ambush.

(ASSOCIATED PRESS NIGHT REPORT.) LAGOS (British West Africa) May 11.—Lieut. D. A. Vanrenen, assistant resident administrator of a district in Northern Nigeria, three others Englishmen, and thirty-five native police were ambushed recently by natives at a point fifty miles northeast of Zungeru. The lieutenant and twelve of the police were killed.

## ATLANTIC TO PACIFIC TRAIN.

Union Pacific Plans Transcontinental Service.

Direct Connections at Chicago for Limited.

No Change of Cars, New York to Los Angeles.

(BY DIRECT WIRE TO THE TIMES.) OMAHA (Neb.), May 11.—(Exclusive Dispatch.) Within about two weeks the dream of railroad men for a generation will become a reality. Details are now being worked out of a plan by which passengers will be enabled to travel between the Atlantic and Pacific without change of cars. While the complete schedule has not been finally arranged, as yet, it is probable the Union Pacific's famous Overland Limited will leave Chicago and Omaha one hour earlier than at present on the west-bound journey, arriving at San Francisco at a corresponding hour. The plan may include the transfer of cars at Salt Lake City over the Salt Lake Route.

This will enable it to make close connection with the train known as the Lake Shore Limited from New York over the New York Central and Lake Shore roads. East bound, the Overland Limited will leave San Francisco two hours later, arriving at Omaha two hours later, and Chicago two hours later, or at 2:25, for connection with the Twentieth Century Limited, which leaves Chicago at 3 p.m. for its eighteen-hour run to New York.

In addition to the through service thus provided from New York to San Francisco and Los Angeles, there will be a New York-Denver sleeper, a new connecting train running over the Short Line from Joliet to Denver, giving the Union Pacific three first-class trains a day between Chicago and Denver.

Connection to Washington and Oregon points will be furnished as at present, the train dividing at Green River, from which point a faster schedule is being arranged to Portland to meet the increased competition of the Hill line.

POOREST PAYING RAILROAD. RECORD IN COLORADO.

(ASSOCIATED PRESS DAY REPORT.) DENVER, May 11.—Gross income, \$125,555; gross operating, \$125,035. That is the record of 1928 of the Colorado Eastern Railroad, according to the statement of its president, Henry T. Rogers, who appeared before the State Board of Equalization yesterday and asked that the assessment of the road be reduced.

The Colorado Eastern runs from Denver to Scranton, Colo., a distance of eighteen miles. There is one house in Scranton.

The rolling stock of the road consists of an engine and a combination baggage and passenger car. The train runs to Scranton every day. The engine collects the fares.

The road was built in the early 80's by two men who believed there were vast coal deposits at Scranton.

RUSHING GOLDFIELD ROAD. SANTA FE CONNECTION.

(BY DIRECT WIRE TO THE TIMES.) GOLDFIELD (Nev.), May 11.—(Exclusive Dispatch.) The last surveying party on the proposed Elly and Goldfield Railroad went out this morning with instructions to hasten work so that the new road may be rushed through to completion. Engineer Rator, chief engineer of the Tonopah and Tidewater road, an auxiliary of the Santa Fe, stated that the construction will cost \$4,500,000, and that the distance between the two towns will be shortened from 100 miles, as at present, to 225 miles. The grade will not be greater than 1 1/2 per cent, and it is expected to have the line in operation by the first of February. This is said to be the western connection of the Santa Fe that will meet an extension of the Moffat road out of Salt Lake in the vicinity of Elly, thus furnishing another and shorter transcontinental line to the Santa Fe penetrating the best part of the Middle West.

Special Rates to Spokane. SEATTLE (Wash.) May 11.—Passenger representatives of North Pacific lines met here today and decided to grant a one and one-third round trip ticket, on sale August 6, 8 and 12, with first-class fares, for the round trip to the National Irrigation Congress to be held in Spokane.

AMALGAMATION FOR ACTORS. Two Benevolent Societies Consider Advantages of Uniting to Erect Building.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, May 11.—Amalgamation of the Actors Fund of America and the Actors Society of America will be perfected, if suggestions made at today's annual meeting of the Actors Fund are carried out.

Joseph P. Grismer, who presided, proposed that the two consolidate and erect a large building to house all the theatrical organizations of the city. Thomas A. Wise, president of the Actors Society, approved the proposal.

Steps looking to amalgamation will, therefore, likely be taken at the next meeting of the executive boards of both associations.

F. P. Mackay told of the progress of the Actors Home, maintained by the fund, saying that twenty-nine old actors had been received in the eight years of its existence, while thirty are now quarantined there.

COMBINATION FREAK CHARTER. COLORADO SPRINGS (Colo.) May 11.—By a vote of 316 to 22, the charter for the Colorado Springs was adopted today. The important features of the charter are the commission form of government, the abolition of political parties in city affairs, the recall, initiative and referendum, and strict control of franchises in the future. The charter also authorizes municipal ownership.

HEART TROUBLE NERVOUS PROSTRATION

After Suffering Five Years From Nervous Prostration and Heart Trouble Mr. Elias Hollinger, 82 Years Old, of Beaverton, Mich., Was Completely Cured by the Great Tonic-Stimulant, Duffy's Pure Malt Whiskey.

"I have taken Duffy's Pure Malt Whiskey for the past two years. For five years previous to that time I was afflicted with heart trouble and nervous prostration. I tried doctors and many nerve remedies, but received little benefit therefrom. After taking Duffy's Pure Malt Whiskey for a short time all symptoms of heart trouble disappeared, and I began to get stronger. I lack a few months of being 82 years of age. I am one of the few surviving veterans of the Mexican War, and aside from a disability contracted in the army, I can say that I feel spry and nimble on my feet, and am vigorous indeed, all of which is due to the taking of Duffy's Pure Malt Whiskey. It makes the old young. Although a strong temperance man, for many years, I heartily recommend Duffy's Pure Malt Whiskey to all afflicted whether young or old."—ELIAS HOLLINGER, Beaverton, Mich.

Thousands of men and women, who have almost reached the four score mark, tell the same story as Mr. Hollinger about what Duffy's Pure Malt Whiskey has done toward renewing their youth and keeping them vigorous, hale and hearty and in possession of all their faculties. As a leading doctor says, the secret of the whole thing is that Duffy's Pure Malt Whiskey, if taken as prescribed, aids in driving out all disease germs, invigorates the brain, enriches the blood, quickens the circulation and prevents decay and old age.

This wonderful remedy has been extolled throughout the world for what it has done for suffering humanity. The success of Duffy's Pure Malt Whiskey in curing diseases has caused many unreliable dealers to put up substitutes and imitations with which to fool the people, claiming that their substitutes are just as good as Duffy's Pure Malt Whiskey. It is not the genuine. It will cure you. Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for \$1.00 per large bottle.

If in need of advice, write Medical Department, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctors will send you advice free, together with a handsome illustrated medical booklet containing some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use

## THE CITY IN BRIEF

Overdue!

## NEWS AND BUSINESS.

## Woman's Mean Trick.

Investigation shows that "Mrs. S. C. Wilson," arrested in the recent police raid on the Boston, Manhattan and other joints, does not and never did live at No. 112 E. 12th street, the address she gave. The woman's mean trick caused unpleasantness to the family of H. B. Webster, residing at this number.

## Injured Autoists Recovering.

Walter T. Varney, No. 1671 Orange street, and Louis Boyle, No. 1687 Orange street, victims of the Sunday night automobile accident, in which a Thomas Flyer belonging to Thomas H. Varney was wrecked and afterward burned on the road to Venice, are recovering. All the boys who took part in the wild ride are anxious to forget their experience. Early Cheney, No. 1234 Ingraham street, and Luther Grant, No. 604 South Bonnie Brae, and a young lady, supposed to be Miss Ethel Jones, are the other members of the party, who escaped with slight bruises when the ride ended so abruptly.

## Loyal Legion Gathering.

Companions of the first (by inheritance of succession) and second class of the Military Order of the Loyal Legion have issued invitations to the original Companion of the Order to become their guests at an informal gathering of Southern California Association, M.O.L.L., to be held at Hotel Alexandria Saturday evening at 7:30 o'clock sharp. All Companions, whether residing or temporarily in Southern California, are cordially invited. Visiting Companions should send their names immediately to H. L. Pywell, secretary, No. 405 Merchant Trust Bldg. There will be music and refreshments.

## After Three Decades.

D. W. Coombs, as manager of the concern which is now known as Cluett-Peabody & Co., gave young H. M. Dixon a job in the Boston factory thirty-two years ago. The two men met again yesterday afternoon in the lobby of the Angels Hotel, and the greeting was effusive. Both are now advanced in years, but still alert and active for all that many winters have thinned their hair with white, and both have made their mark in life. Coombs retired from business some time ago and has been visiting relatives in Southern California during the winter. He has practically made up his mind to locate here. Dixon is considering an early retirement from business and thinks seriously of following the example of his former employer and making his home in Los Angeles.

## BREVITIES.

To "Liner" Advertisers: Dating from June 1st, classified advertising in the Times will be charged by the word at the present established rate of 1¢ per word in the daily issue and 1½¢ Sunday. Close calculations covering a period of several months develop the fact that the average number of words to the line are a fraction over seven. This basis for charge, therefore, will prevail after June 1st. "Cash" "want" advertising has always been calculated by the word, and this regulation will not change the manner of handling it. The present "want" ad rate has been in effect for many years, though the circulation of the paper, now more than 50,000 daily and 80,000 Sundays, has trebled during this period. No passer in the United States rate considered, compares with The Times in "want" ad service. The Times-Mirror Company. Remember the slogan: "Buy and Boost Home Products." For daily references, see page 11, of The Times, containing a list of wide-awake manufacturers, under the heading "Made in Southern California." You will find there are manufacturers of necessities and luxuries here—manufacturers of things to eat and drink—things for the home, the factory, the office and the farm. Buy them! Try them! There are none better. Buy and Boost, and keep your money at home where it will do you and yours the most good.

The Kerckhoff-Cusner Mill and Lumber Company have established their general office Rooms 201-207 Kerckhoff Bldg., Sixth and Main streets. We want to tell you where to buy your next pair of shoes, and save money. A. J. Hamilton & Son, 311 S. Broadway. Wreden Packing and Provision Company will give special low prices on choice meats this week, 123 S. Main. Fine shoes, samples, at one shop only, Streicher's, 517 S. Broadway, upstairs, take elevator. Model fitting patterns cut to measure, Stoenberg, Ladies' Tailor, 1023 W. 7th.

## STRIKE NEAR SANTA FE.

Prospectors in New Mexico Find Quartz That Runs Over \$400 Per Ton. (BY DIRECT WIRE TO THE TIMES.) SANTA FE (N. M.) May 11.—[Exclusive Dispatch.] It was learned here today that A. B. Craycraft, a local photographer, and W. W. Ingersoll, a carpenter of Chicago, have made an enormously rich gold strike in Little Tesuque Canon, three miles north of Santa Fe. News of the bonanza became known when James Mullaney, New York mining expert, entered into an agreement with Craycraft and Ingersoll for a one-half interest in their claims. Mullaney promising to furnish capital for their development. After learning of the strike, Mullaney pronounced it a bonanza. Assays run over \$400 in quartz to the ton. The result is a stampede to the scene of the strike which may rival that of Cripple Creek.

Trade That Pays. Young men to learn to operate the typewriter; a good trade that pays above the average. The Consolidated Typewriter Co. is installing over 30 typewriter machines per month. They must sell as many positions as they find at good wages. The Los Angeles Times has installed a large typewriter plant, to be used in case of accident, and has placed in charge an expert typewriter and stenographer. Students who are desirous to learn either the typewriter or stenography, or both, should contact the Consolidated Typewriter Co. in Los Angeles, or the Los Angeles Times, 400 Main St., and ask for the name of the manager.

## YANKS THE BILLY.

Officer DeBiron of Monrovia Gets Into Struggle With China Constable. Hot Mix-up.

Carrying an officer's billy, which he claims as a reward of conquest, Dr. L. H. E. DeBiron of Monrovia, officer of a society for the prevention of cruelty to animals, recently organized there, returned last evening from an adventure at China.

He went to that town yesterday on a business trip, and while waiting for a train on which to come back, saw some Mexicans inflicting what he declared was cruelty to animals. "One old horse driven by the Mexicans," said the doctor, "was bleeding at a spot where the collar was pressing on the shoulder. The feet of another were worn down almost to the bleeding point. A third horse was suffering from malarial disease, and the hard backstrap, which was destitute of padding, was digging into an ugly welt from which blood and pus were running."

"Acting in the capacity of a citizen, I arrested a Mexican named Reina, who appeared to be a boss among the men of his nationality, and took him before the justice of the peace there on a charge of cruelty to animals. Reina pleaded guilty, and his sentence was suspended."

"A little later Constable (W. J.) Tebo made a verbal assault on me for interfering in his bailiwick, and followed it with physical violence. He told me and told me I was under arrest for pretending to act as an officer outside of Los Angeles county. I knocked him down and he struck me with this billy, which I took away from him. I also took his hat, which got pretty thoroughly broken up in the fight."

## TO PUNISH STRIKING STUDENTS.

Government of Japan Will Make Example of Rebellious Pupils If They Persist.

[ASSOCIATED PRESS NIGHT REPORT.] TOKIO, May 12.—It is authoritative-ly stated that the government will make an example of the rebellious students of the Commercial High School in order to suppress insubordination of students, which is becoming widespread. Because the government refused to grant their petition to raise the Commercial High School to the rank of a university, 1500 students at a mass meeting yesterday adopted resolutions declaring their intention not to attend the school any longer. While the government will allow the students time to realize the seriousness of their step and to reconsider the resolution, drastic measures will be taken should they remain obstinate and not return to their studies when the school reopens Saturday morning. A number of influential leaders in the opposition party are supportive of the striking students in their stand and are attempting to make a political issue of it.

Indications are that the students will abide by their resolution. TOBACCO TRUST WINS. ALBANY (N. Y.) May 11.—The Court of Appeals today affirmed the judgment of the court below in the case of John A. Lockyer vs. the American Tobacco Company and others, dismissing the complaint. Lockyer claimed the defendant controlled so large a proportion of the tobacco output that its refusal to sell the plaintiff its products destroyed his business.

## BIRTHS, DEATHS, MARRIAGES, DIVORCE.

In Memoriam. [Under this caption The Times will accept for publication, at 10¢ regular rate of 2¢ cents per line, anniversary notices in commemoration of deaths.]

## Deaths.

WERTH, May 11, 1932, Ferdinand A. Werth, aged 61 years. Funeral at 2 p.m., Thursday at the German M. E. Church, corner Fifth and Olive streets. ## That's Right

We can't get along with the limited number of cops that were sufficient to keep the peace when Los Angeles was a sleepy pueblo.

As evidence of the way Los Angeles is growing we call attention to the fact that it now takes three big stores to supply the clothes needs of "men who know."

B. & K. SYSTEM

MADE TO ORDER CLOTHES are becoming more popular every day, because good dressers are aware to the fact that we are making garments that are snappy and up to the minute in style and offer greater value at any given price than you can get elsewhere.

SUITS TO ORDER \$20 TO \$50

## BRAUER &amp; KROHN

TAILORS TO MEN WHO KNOW  
128-130 S. SPRING  
COR. FIFTH & SPRING  
114 1/2 S. MAIN ST.

## Nicoll's Woolens

You'll find our fabrics—for this season's wearing—superior in quality—in variety—and character—as compared with the showing of the average tailor.

You'll find here an assortment of smart—snappy—fabrics that will gladden the heart of every good dresser.

You'll also find them modestly priced—consistent with satisfactory tailoring.

Trousers \$6 to \$12. Suits \$25 to \$50

## Nicoll TAILOR

### MINES AND MINING. COPPER FOUND IN NEW FIELD.

**SURFACE TRACING GOOD FOR A HIGH-GRADE LEDGE.**

A copper deposit in San Bernardino county, traceable on the surface for miles, is reported by P. H. Coward, who has been operating for several years in the Cranford, Bonanza and New Lake districts, this state.

Coward is here to send a crew of men to start development to the extent of the find. The surface tracing as to length is marked, and the width is hard to determine, because covered by a hard surface of carbonate of lime. Assays of the outcropping show from 6 1/2 to 23 per cent. copper.

The district has been little exploited recently, according to Mr. Coward, who says that some good properties have been passed over for twenty years or more. Recently considerable discoveries have been made, and the district is looking up.

Mr. J. Rogers has opened a vein of copper on a property he is developing near the copper find, ten miles north of Soda Lake station, on the coast and Colorado and twenty miles west of Silver Lake. He has a vein down twenty feet. At the top point the ore ran two ounces gold to the ton, at twenty feet it goes five ounces, and is improving with every foot of depth. The streak is only a few inches wide, but the ore is good for a better vein down.

Some prospectors have a sixty-five-foot vein down on their claim a mile and a half west of Rogers, apparently on the same ledge, and have encountered a full supply. The water is flowing out of the ledge, dissolving the ore of soda lake, and is drained through ditches and pumped into crystalline ponds, where, by means of a vacuum crystallization, the salt and soda will be separated. The salt will be used in summer by solar evaporation, and the soda crystallized in winter, when the temperature reaches zero.

**Develops Water.**  
The Pacific Salt and Soda Company has developed fifty inches of water by digging into a bank of sand, and has proven ten acres of water sufficient to guarantee a full supply. The water is flowing out of the ledge, dissolving the ore of soda lake, and is drained through ditches and pumped into crystalline ponds, where, by means of a vacuum crystallization, the salt and soda will be separated. The salt will be used in summer by solar evaporation, and the soda crystallized in winter, when the temperature reaches zero.

### BALL TEAM FORBIDDEN. Police Can't Send Nine North, This Season—Practice Interferes With Regular Duties.

The police department's baseball team will not go north this season to play with San Francisco, Oakland and Stockton, as in days gone by.

This decision was reached yesterday by the Chief, and was made known in this bulletin to division commanders: "The unanimous sentiment of the captains and lieutenants of this department is that the organization and maintenance of a police baseball club for the purpose of playing with similar organizations in other cities is inadvisable to proper discipline. Experience has demonstrated that the exertion incident to practice tends to unduly weary the men, and that accidents frequently result in injuries, which wholly incapacitate members for police work. It is, therefore, ordered that further arrangements for a police baseball team be suspended."

"If the boys want to make up a team to play local clubs, like the firemen, others, I do not object," said the Chief. "But a semi-professional team interferes with duty."

**THE OIL INDUSTRY.  
PALMER COST MUCH MONEY.**

**SIXTY-FIVE THOUSAND DOLLARS SPENT DRILLING.**  
Eighteen months required to get Big Quaker Finished—Less Time Expected to Be Taken in Future. Union's Strings on Outlying Land, St. Francis Quits.

The Palmer well in Santa Maria cost the owners \$65,000 to drill, and consumed eighteen months. William Hardee, president of the National Supply Company, is one of the principal stockholders, and others in the same company are interested. These were the ones who originally backed the prospecting which was started under the management of R. E. Henderson, the present manager. The land cost nothing in cash, being a lease on one-tenth royalty.

Drilling in Cat Cañon is thus seen to be rather costly and slow. The Brooks, Henderson and Union wells have made better time so far, after a three-pipe casing as large as would be expected, as the territory is no longer so completely unknown. While work is all deep, some drillers express the opinion that it will be much more rapid in most cases hereafter. Stone-pipe casing as large as twenty inches has been used to start with.

**ORGANIZATION FORMING.**  
Several operators in Cat Cañon spoke of organizing as practically settled, when the writer was there last week. Officers are to be chosen shortly and details arranged. Just what plan will be followed is not absolutely determined, but it is expected to be along the same lines as the valley agencies. The fact that the main production of both the new and old sections, except the Union's, is largely in the hands of a comparatively small group of local men, should simplify organization. At Bakersfield and Coalinga there were several times as many varied interests to reconcile.

The great difference in the gravity of the old and new products is likely to necessitate the making of two contracts, one for the higher grade in the old field, probably with the Standard, and the other for the heavier fuel with the Associated or Union.

**DRILLING GOING ON.**  
This week an effort is to be made to shut off the 2400-foot daily flow of hot sulphur water struck in the Foxen well, eight miles east of the Palmer, at 2400 feet. It will then be drilled deeper.

The Union is running sixteen strings, drilling in the two sections, viz: Escolle lease, one; Squires, two; Bell (Cat Cañon), five; Newlove, eight. It will be seen that except for the two on the Squires this work is all on the outlying properties, in which class the Newlove may be considered, as it is between the main producing belt and the south end, where the Western Union and Graciosa work and its development is merging the two sections into one. Since the abandonment of the Hobbs No. 10 nothing has been started there. Neither is anything being done on the Hartman or Folson, the main leases in the old belt.

Besides its three strings in Cat Cañon, the Dome is down some 1000 feet on its Wickenden lease, three miles northeast of Los Alamos and several miles east of Cat Cañon, where it has 1800 acres on the Gato ridge and decline.

## Bradford's Bread

Is Made In the Cleanest, Coolest Bakery in Los Angeles

Bradford's Bakery has by far the largest floor space of any bakery in Los Angeles. The ceilings are high and the ventilating system is perfect. This insures a continuous circulation of pure, fresh air, which keeps the entire bakery cool and comfortable at all times—a condition entirely impossible in the average pent-up bakery, where the men cannot work without perspiring.

The one fact alone that Bradford's Bread is made in such spacious and cool quarters makes it beyond all question the cleanest and most healthful bread to eat.

Get BRADFORD'S from your grocer TODAY.

**SEEK MISSING RECORDS.**  
Hollywood Water Consumers Continue Fight for Lower Rates Before Board of Supervisors.

Another hearing, the fifth was given the water consumers of Hollywood yesterday, by the Board of Supervisors in the people's effort to show that the Union Hollywood Water Company is charging too high a rate for its water, and that its valuation of its plant is exorbitant.

The sensation of the meeting was the discovery that certain records of the company's employees of the company having in charge certain files of records of transactions was subpoenaed by Attorney Park for the consumers to bring the records before the board.

Park stated that he had examined the record book a few days ago with Capt. Fraser of the company and that he had found a discrepancy in the purchase of the old West Los Angeles Water Company plant by C. J. Hyler and others.

But when the file book was brought into the board room these particular papers were missing, and there was a blank of several figures between the numbers in which were included the missing papers.

Clerk Sperry could not tell what had become of them. He acknowledged that the book had apparently been tampered with since the visit of Park and Fraser, who is now on a trip North.

A mass of figures as to cost of pipe and other materials, the construction of subways and laying of pipe, and the cost of the water, was submitted. Superintendent Mulholland of the City Water Department was a witness, and testified as to the cost of certain material and work. It is asserted by the consumers that the Hollywood company buys its water from Los Angeles for 33 cents a 100 cubic feet, and sells it for \$1.60. Santa Ana supplies its consumers for \$1 a 100 cubic feet. The hearing will be continued next Tuesday.

**PERSONAL.**  
H. Cohen, a hotel man of Hermosillo, Mex., is at the Hollenbeck.  
George F. Hodge, a mining man from Yuma, is registered at the Nadeau.  
Mrs. W. Williams of Boston is one of the late arrivals at the Nadeau.  
T. D. Boyce of Coalinga is in the Alexandria. He is interested in oil.  
C. T. Anderson, collector of customs at Calexico, is one of the guests at the Van Nuys.

MUSIC AND THE STAGE.  
According to a New York dispatch,  
Belasco and E. U. Steinman,  
San Francisco bankers, will leave the  
country for the Pacific Coast today,  
perfecting plans for a new thea-  
ter in the downtown section of San  
Francisco, to be known as the Belasco  
theater. The early attractions under  
Belasco's management, in San  
Francisco and Los Angeles, will be  
Robertson in repertoire.  
It is reported that Dorothy Bernard  
and Van Buren are shortly to  
be married. As both are some thou-  
sands of miles distant, rumor has no  
verification. Miss Bernard has  
played as leading woman with  
Courtleigh in vaudeville, while  
Van Buren is slated for a part in  
commencing New York production.  
Dagneau's clever dancing is a  
feature of the Walker Theater bill this  
week. Miss Dagneau is not only a  
dancer, but is a quick-change  
artist impersonator as well, and is  
giving an unusual vaudeville fes-  
tivity.  
Hyder's troupe of educated  
actors also adds much to the mirth  
of the Miss Alberta Lane, so-  
cially a fine lyric voice and excel-  
lent presence. Ernest Allison,  
plays on a great variety of musi-  
cuments, presents a novel act.  
Curnell has a fund of new jokes  
and does a ridiculous old-  
impersonation. Editha Taylor,  
singer, has some bright new song-  
specialties. Joseph Manley  
has a new illustrated song, with un-  
usually interesting pictures.  
Lettelle and new motion pic-  
ture conclude the programme.  
A trained pony, called in color  
of surprising mental alertness,  
appeared on the Los Angeles Thea-  
ter programme this week, and de-  
fied his place on the bill. Yester-  
afternoon the pony, seemingly  
not assistance from his trainer,  
answered questions in simple addition,  
multiplication and put to  
the audience, and never once  
in his results, the numeral be-  
lieved by hoof beats upon the  
floor.  
The pony follows the dogs on the  
and the dogs follow the human  
maine performers offer a "Dog-  
comedy, the animals being cost-  
to represent the various dra-  
matic scenes, and walking through  
parts erect and as though they  
were human.  
The numbers on the programme  
include the appearance of Warten-  
Brothers, foot jugglers; Welch  
and singers and dancers, who  
something of a novelty in the  
of a madly queer; Delmore and  
the latter, a well formed  
woman who poses on top of a  
balanced by her partner; Betty  
staying comedienne, who sings  
French and a German and  
each in appropriate costume, and  
author of "Down West  
who hands out a mono-  
logue with musical accompaniment.  
The pictures complete the enter-  
tainment.  
Tok is now commenting on the  
new record of "The Doll and the  
Morning Telegraph, in a  
story, terms it the most re-  
cent stock feat in the history of  
theater.  
Blackwood issued the regu-  
lar "last week" announcement  
this week.  
William Kolb took his first re-  
turn at the undoubted, though  
undoubtedly, talent of Olga  
yesterday. According to Kolb,  
his stock possesses the essen-  
tial of a most remarkable comedienne.  
John Von Stein, pianist, lecturer,  
and general musical promoter,  
announces conservative plans  
and project a teaching institu-  
tion on a larger scale than has heretofore  
been thought possible in the  
city.  
Adams, pianist, gave her sec-  
ond recital in her Majestic  
building studio on Monday  
evening. Mendelssohn was the sub-  
ject of the programme. On  
June 7, Mozart will be dis-  
cussed.  
WIDOW WEEDS COUNT.  
Mrs. Fieles Bird of Descent.  
one of "Three Mus-  
ketiers."  
BUREY WIRE TO THE TIMES.  
NEW YORK, May 11.—[Exclusive  
dispatch.] Mrs. R. T. P. Fieles, a  
rich and wealthy widow, was  
killed by St. Peter's Roman Catholic  
priest, New Brighton, Staten Island,  
N. Y., who was visiting in the city.  
The Countess de Montesqueu-  
ville, of Paris, who claims descent  
from Dumas' "Three Mus-  
ketiers."  
Robert de Montesqueu-Pes-  
sac, poet, and friend of James  
H. Hyde, was best man for his  
daughter's wedding. The bride  
had no attendants.  
Father Charles A. Cassidy  
performed the marriage service. The  
bride was given away by her brother,  
Hiller.  
Countess has lived abroad  
since widowhood. Her two young  
daughters are being educated in a  
convent. She met the Count  
Montesqueu last summer, while  
on the Atlantic on the French  
line. She will make her home  
in New York with her husband on  
the same vessel where  
she found his inception.  
MUSICIANS SEEK REVENGE.  
Yells Meeting of Germans  
at Haymarket Executions De-  
mand Retribution.  
BUREY WIRE TO THE TIMES.  
NEW YORK, May 11.—[Ex-  
clusive dispatch.] The discovery  
of the American courts  
that anarchists are being  
sent to the penitentiary for  
the adoption of active police  
measures, has led to a group of anar-  
chists who gained admission to  
the meetings found an Amer-  
ican named Dier making  
speech. He described  
executions in Chicago  
and that they must still be  
through the destruction of the  
and legal institutions.  
Anarchist leaders when ap-  
peared that as the meeting  
was debating club, to which  
members were admitted, the au-  
thor had no right to interfere. The  
speaker, broke up the assem-  
bly and hurried proceedings on the  
subject of the violation of the  
law.

## FACTS, FEATURES AND FACES FOR YOU

BY MISS SYDNEY FORD.

Yes, ladies, they're all gone. Those French models I told you about the other day that were going on sale at half price. At least there wasn't but half a dozen of 'em left when I looked into the shop yesterday morning, and it's more than likely they've been picked up before this.

Of these half-dozen, three were such dainty little gowns that I must tell you about them. They were of fine soft handkerchief linen—one in delicate lavender and white, another in blue and white and the third in old rose and white. They were so Frenchy and put together with such cunning and had such a distinguished air that they were simply fetching.

This final sale marked the end of the 100 sample Parisian gowns imported this season by this firm, and I have it from reliable authorities—no less than 250 sewing girls in the work rooms of this establishment are this minute putting together the fragile fabrics that go to make the summer wardrobe of Los Angeles fashionable women. They'll keep right on sewing, too, for six weeks to come, without let or hindrance, in order to fill the orders now on hand.

This indicates the work of but a single shop and is probably a sample of what is going on in every one of the big houses that line the streets of our shopping district. The fashionable folk are making ready for the annual summer fitting to seashore and summer resort, to Europe and the Orient and to the South Seas.

### A Corset Opportunity.

Every woman likes to own at least one elegant corset for wear with her very best gowns. Whereas we used to think folly to invest much money in stays, and were quite content with a set of steel and whalebones sewed into some sort of stout cloth, now we reach out with longing hands for the dainty silken, lace-trimmed, ribbon-laced affairs which fit like a glove and cling with comfort to the figure, coaxing it into perfect shape and making instead of fatiguing the form.

Quite accidentally, ladies, I learned the other day that a certain firm which never carries anything but the best made a mistake in its spring order for French corsets, and through the blunder of a supply agent sent duplicate orders to Augustine Thomas, the well-known French corset maker. Result, an overstock of corsets. Now you know that, owing to the changing demands of fashion, it's never safe to carry over to another season even the corsets which today are, last next season they be totally different in form and feature. To guard against such a calamity, with an overstock of double-eagle corsets on hand, no firm would dare take a chance, so I understand that within a few days there will be a golden opportunity to select a silk coutil corset, trimmed with real Val lace, its front steels faced with plush and its laces and eyelets threaded with soft silk ribbons—in short, a corset such as would satisfy the daintiest aristocrat that ever wore a French gown—at exactly half price.

### A Golden Symphony.

If you don't want to get entangled in that golden spider web which appears in that golden window filled with gold-lined stationery tied up in gold ribbon—better keep away. It's very enticing. Nothing in the way of gold stationery has ever been introduced in Los Angeles since the case of keep pace with this metal-lined supply that for several weeks has made the window of a certain jeweler's establishment a thing of beauty. One way or another, you'll see it. The next green, the next violet and so on. This week it is gold, and if you wish to see a perfect symphony, just glance at that glittering window as you pass by and do not fail to notice the mammoth stick of gold sealing wax and the gold monogram for stamping, and just observe while you are about it, that the artistically lettered sign calling attention to the display is done in gold, too.

### The Taster.

I appreciate the demonstrating tables and counters which seem to spring up like mushrooms in our stores, but, dear me, I just had to laugh yesterday as I stood for five minutes and watched a woman sample a can of medicine—a spring tonic, so the eloquent demonstrator told them, which was warranted to put spring into the heels of the tired woman who ever walked across a kitchen floor. "A swallow of this tonic, ladies," she said, "will put new life into you. If you feel all-gone and worn out, just swallow a glass of this delightful, pleasant tonic and I assure you, you will feel like a new creature."

I observed a very stout woman who was sipping the liquid and smacking her lips as she slowly sampled the tonic. Beside her a slim slip of a girl and beyond her an old woman with wrinkled face asked two black looking young matrons leaned against the counter watching the demonstrator as she poured out samples in the little tasters. They all tasted and pondered and compared.

"I don't know what it is to feel tired," observed one young matron to the other, "but I guess I'll take a bottle—it's handy to have in the house—and so cheap, too. John or the children might need to put spring into them up once in awhile. I always feel safer to have medicine in the house—yes, madam, a large bottle if you please."

"I believe I'll take a bottle, too," said the stout woman; "an ounce of prevention's worth a pound of cure" as mother used to say, and she laughed cheerily as she fished out the change from her hand-bag.

### Relax, Relax, and Then Again Relax.

To learn how to relax is worth more than all the tonics and doctors' prescriptions in the universe. A woman can get more renewed strength by simply relaxing every muscle and nerve for five minutes than she can swallow from half a dozen bottles of "spring tonic."

Instructor who is testing the powers of relaxation of her pupils.

Ruth Cameron in her department in an eastern exchange says: "I know a girl who works hard as a stenographer all day and yet comes home at night five nights out of the week, sits down at her typewriter and works hard all the evening. All her friends have cheerfully prophesied that she would break down, but up to the present date she has not. She observes all the laws of health most carefully, has her cold bath of a morning, eight or nine hours' sleep every night and very regular meals, and never falls each day to devote a few minutes to complete relaxation. It is to this last fact that she herself especially credits her ability to disappoint her friends' kind predictions. When she comes home at night, instead of picking up a book and reading a story while she waits for supper to be ready, she goes straight to her room, loosens her clothing, throws herself upon her couch and lies there flat on her back, with every muscle, as far as she is capable of having it, completely relaxed. She even says that in these few minutes she relaxes her brain and does not think. If all hard-working, overdriven women would follow this girl's plan and once or twice a day give themselves entire relaxation of mind and body there would be fewer nervous breakdowns than there now are."

While the above is an excellent example of what relaxation will do for a woman, yet I would utter protest—long, loud and emphatic—against any girl making such a working machine of herself as this stenographer. The burning the candle at both ends is bound to provoke dire results, sooner or later. No woman, or man, can endure such a constant strain as this without paying for it sooner or later. Any stenographer who works hard all day in an office should have her evenings clear for rest and recreation, for self-improvement and for opportunity to realize the joy of life. My heart is stirred with pity for the girl who must needs deprive herself of all girlish pleasures just to grind out an existence from the clicking keys of a typewriter working both day and night.

### Fashions and Fads.

Belts should match the skirt. Piume hats are as popular as ever. Black will play a great part this season.

Contrasts in embroidery and braiding are rare.

Riton or Dutch collars are more popular than the sailor collar.

The newest stockings feature the buttonhole edge.

The collarless gown is gaining a great popularity.

The fashionable seal contains but a single letter.

Many of the fashionable long jackets have pockets.

The smartest stockings are embroidered in self tones.

Medallions with a monogram adorn some of the silk hosiery.

Pongee and rayon silks in all colors are very fashionable.

The smartest styles will eventually continue through the season.

Taffeta silk is back again, after many months of enforced retirement.

There will be many stone-gray hats worn this spring by elderly men.

### STOOD FOR DYNAMITING.

Coalings Visitor Tells How Union at Cripple Creek, Colo., Aided Lawbreakers.

J. A. McKnight of Coalings, formerly of Denver, is making his headquarters at the Lankershim while in the city on mining business. McKnight, as he styled himself, was the "angel" for the Cripple Creek Morning Journal during the labor riots and dynamite outrages in that district, and his angel wings cost him \$7200. In the end he was forced to give up the paper to satisfy the claims of its employees.

When the strike was first called, it was a fight for eight hours and a day, and the paper was in sympathy with the miners, said McKnight. "But after a few days the dynamiting began. Representatives of the paper went to the miners and told them that if they produced the guilty men the paper would stick to the union. The offer was refused and every night after that there were threats of dynamiting the newspaper office."

McKnight is now giving his entire attention to mining and oil operations, and is enthusiastic over conditions in the Colorado field. "Oil country," he said, "there are limitations on the life of every field—some districts are long-lived than others, but there is this about the Coalings field, it is a well driven down there thus far has been a producer."

"By the way, I haven't heard that the Japanese resisters who were there three or four months ago, looking for oil contracts for their government, have succeeded anywhere else. I don't believe there are operators in any field who would care to make contracts for as long as ten years, as the Japanese asked. Fields which are producing, a new field is found somewhere else. Why, when I was a boy back in Pennsylvania, a few miles from where my old friend, Coal Oil Johnny, lived, people believed that oil would never be found outside Pennsylvania."

### EPISCOPAL WOMEN MEET.

Review of Work of the Auxiliary Societies for the Past Year—Annual Convention Opens Today.

The Woman's Auxiliary of the Diocese of Los Angeles, preliminary to the annual Episcopal convention, met yesterday in St. Paul's Guild Hall, which was filled to overflowing.

The meeting was prefaced by a communion service in the Pro-Cathedral, conducted by Bishop Johnson, and the remainder of the forenoon was devoted to hearing reports from the various branches throughout Southern California. A conference of the official members of the women's meeting was held at 12 o'clock.

In the afternoon Mrs. P. G. Hubert, president of the Diocesan Society, presided and delivered her annual address. Among the interesting talks was that of Mrs. C. R. Brunson, a missionary among the Indians at Mesa Grande, Miss Styles, from the La Jolla reservation, and others.

Last night the junior auxiliaries of the diocese and the young women's branch of Pasadena held a meeting in Guild Hall. The meeting opened with an address by Bishop Johnson, followed by recitations by representatives of a number of parishes, and the reading of letters from fifteen different mission fields.

Dean William MacCormack then ad-

# Announcement Extraordinary

From the Only Exclusive Boys' Store in the City

A trifle more than six months ago the Juvenile Company opened its doors to the public. The volume of patronage accorded us has been highly gratifying and we have made many friends and customers among the boys and their parents.

But we want to get more people acquainted with our splendid stock of juvenile and young men's clothing. We want to convince every mother in Los Angeles that this is the best place to buy her boy's apparel.

We want to demonstrate that we can please every boy, big and little, in regard to clothes.

Being the only exclusive boys' store in Los Angeles we can offer better values than any other store in the city and we want you to know it. Therefore we make the following extraordinary offer:

## Entire Stock of Boys' Suits, Pants and Reefer Coats at 1/4 Off

This includes our entire line of boys' Knickerbocker, Russian blouse, sailor and little manly suits—all ages from 2 1/2 to 17 years; also all separate knee pants and all boys' reefer coats. All the newest styles and the choicest patterns. Every garment guaranteed as to quality. Remember the stock is brand new—all choice goods to select from.

Our regular prices are the lowest in the city—at 25 per cent. discount they are bargains you can't afford to miss.

### FOREIGNERS SHIRK.

Workmen on Panama Canal Take Advantage of Contracts and Loss Efficiency.

[ASSOCIATED PRESS DAY REPORT.] WASHINGTON, May 11.—With a view to ending the inefficiency and practical insubordination among the Spanish, Italian and Grecian laborers on the Isthmian Canal, Chairman Goethals has had to revolutionize the system under which European labor is employed there. He has given notice to the consuls from these countries that he intends to place the laborers from their respective countries on the same footing that Americans must labor on the canal.

On account of the contractual obligations, recognized by the canal commission in importing European laborers, they have been permitted hitherto to retain their special checks which entitled them to receive 20 cents an hour, American currency, even though their services were unsatisfactory.

This has resulted in the European laborers deliberately reducing the output of their work to such an extent that all the superintendents and foremen are unanimously of the opinion that the efficiency of contract labor is much less than a year ago.

In addition, several instances verging on insubordination have resulted from the leniency, the Europeans being removed from fear of dismissal.

Col. Goethals has announced that henceforth European contract labor will have their special contracts revoked, just as Americans in case their services are unsatisfactory.

In such event they may be re-employed at wages commensurate with the services rendered, or may be denied work entirely.

### NEEDLES DIVERSION DAMS.

J. H. West of Needles, who is serving his fourth term as a member of the Board of Supervisors of San Bernardino county, is at the Hollenbeck. "I came to Los Angeles only on personal business," he said. "The thing of general interest being done in Needles now, is the work on the diversion dam by the government. The lowlands in the river bottoms have already been cut up pretty badly by the Colorado River since the building of the Laguna dam, and it would not take long for the railroad shops of the Santa Fe to go floating away if something were not done for their protection. The remainder of the town is higher and might have been in some danger, but the diversion dams will fix all that."

Rev. T. S. Urena of No. 124 East Twenty-third street will leave Los Angeles May 15, sailing on the steamship Cleveland May 22 on an extended tour of Europe.

Mrs. A. T. McCord of No. 3644 Wilshire boulevard will leave Los Angeles May 15, sailing on the steamship Cleveland May 22 on an extended tour of Europe.

## WOULD CHANGE TANGLED NAME.

### HUMANE SOCIETY DEBATES THAT QUESTION.

President Asks to Be Relieved of  
Further Service—New Board of  
Directors Chosen—S.P.C.A. Also  
Meets and Held Annual Election.  
Shows Much Accomplishment.

The Humane Society met in annual session yesterday, at the Hotel Larchmont, elected a new board of directors and held a lengthy discussion upon the proposed change of name.

Mrs. J. B. Millard, who has been president of the society for five consecutive years, made her final report and asked to be relieved of her responsibility. She stated that other duties require so much of her time that she feels she should be relieved of this, having tried during all the years of her occupancy of the office to give close attention to the business. Mrs. Millard is a woman of exceptional ability as a presiding officer, and handled the tangled debate on the change-of-name question with much tact.

The full name of the society is, "The Humane Society for Prevention of Cruelty to Children." Originally, the affairs of both the children's branch and the animals' branch of the society were operated together, but were separated some years ago, and now each independently handles a large volume of business.

For a long time there have been occasional "brawls" between the two, with reference to money sent in for the support of "The Humane Society," each laying claim to the donation, but neither was willing to drop the name "Humane Society," from its official title.

Yesterday the matter came up in the form of a motion that the name be changed to "Society for Prevention of Cruelty to Children." The alternative proposition was made that it be called "The Humane Society for Children," but the former prevailed by a vote of about two to one. Several lawyers who were present objected to dropping the first part of the name, and the vote was finally reconsidered and the proposed change defeated.

The following-named were elected directors, being named in the order of the highest vote at the election: C. C. Austin, M. Adler, E. J. Lickley, Mrs. F. E. Pay, C. C. Desmond, M. Welch, Mrs. F. H. Jones, Mrs. J. A. Edwards, Mrs. J. E. Carpenter, Mrs. H. R. Boynton, J. A. Haskett.

It was said yesterday, by persons in touch with affairs, that John C. Austin will be chosen president by the new board, and that some motherly woman will be chosen for secretary, on account of the delicate questions that arise concerning small children in many instances.

The society for Prevention of Cruelty to Animals also held its annual meeting yesterday, and elected the following directors for the ensuing year: W. W. Chamberlain, W. J. Varley, J. W. Huntington, Daniel Stone, Howard E. Huntington, D. R. Miller, Mr. Chamberlain has been president of the society during the past year, and Mr. Varley, vice-president, and they will no doubt be re-elected for another year.

W. W. Chamberlain, superintendent of the society, made a report that indicates great activity on the part of the executive officers during the past year. He showed that 493 animals were examined, of which number he destroyed 255 horses, 28 mules, 15 cattle, 125 dogs, 24 cats.

### LETTERS TO THE TIMES.

(The Times freely publishes the views of correspondents without holding itself responsible for opinions expressed. No letter will be printed unless it contains a return address. Letters are subject to the editor's privilege of condensing or omitting.)

**Union Depot.**  
LOS ANGELES, May 11.—(To the Editor of the Times:) Permit me to add a word to the discussion in your valuable paper regarding the selection of a site for the much-needed and inevitable Union Depot.

We need a great cross-town street north of the Plaza, as valuable and as necessary to the growth and welfare of the city as Seventh street. Such a street can be had by improving and connecting Sunset boulevard with Main street.

Then, abandon all the streets and sidewalks and purchase all the property north of Aliso street and east of Main street to the Los Angeles River for railroad purposes, and build a great union depot with many tracks, side by side, north of the Plaza, at the northeast corner of Main street and Sunset boulevard, thus extended, widened and improved.

This will give to Los Angeles an up-to-date, first-class, best location ever given a railroad depot in a great city. And it is the only safe, adequate and convenient place in this city, now available.

Then construct a great subway from San Fernando street under Main street to the south line of the old city limits, with stations at the Union Depot, and Sixth and Washington and Jefferson streets, to accommodate and expedite the travel from the mountains to the sea.

I have seen the population of this city double five times, and it is safe to say that it will soon double again. The great northwest and northeast and north part of this city have just begun to grow awakened by quick and cheap transportation, by the best electric street railroad system in the world. And, when the population of this city shall have doubled once or twice more, the Plaza will be restored to its former glory—the center of the city of the Angels.

Build the Union Depot north of the Plaza and build the great subway under Main street. The Greater Los Angeles is building, but we are still in the pioneer stage.

WILL D. GOULD.  
May 11, 1920.

**Opposes the Model License League.**  
LOS ANGELES, May 11.—(To the Editor of the Times:) Would you permit me through your columns to answer some of Mr. Smith's arguments in favor of a model license league?

Mr. Smith takes for his text—the saloonkeeper out of politics and the lawbreaker out of the saloon business. Let me say right here, when you say that we will have no saloons nor saloonkeepers; for there are bad saloons and worse, bad saloonkeepers and worse; no good ones. I admit some saloonkeepers are better than others, but when a man goes into the saloon business, he does it for the money, no matter whose home is wrecked, nor whose boy or girl is sacrificed. The young man who takes his first drink in a model high-license saloon will go down to a drunkard's grave just as easy as if he had started in a low dive, and the model saloon Mr. Smith talks of exists only in his imagination. There never was a place where intoxicating liquors were sold, where there are law broken, both human and divine. The sale of liquor as a beverage is a crime against good government and good citizenship; wherever it is sold, you have broken heads and broken hearts. No, no, Mr. Smith, you can't fool the people all the time. The place for your model league saloon is in Hades. The people have been

Suits for Men

Suits for Week Days—Suits for Sundays  
Suits for Work—Suits for Play

All-around suits. That's what these are. They'll stand the wear of business. They have the style for Sunday and holidays. They're the kind a bank clerk can wear at his desk, or the engineer enjoy after his day's or week's hard work. That's just what they are. Hard work clothes. They'll do good work for you and deserve to be bought by the man that works hard for every dollar.

A chance to get more than a dollar's worth for every dollar you spend. Don't miss it.

### RUSSIA AND CHINA AGREE.

Provide for Government of Railroad Zone in Manchuria by Joint Administration.

(ASSOCIATED PRESS DAY REPORT.)  
PEKING, May 11.—An agreement between Russia and China, providing a method of government for the Russian railroad zone in Manchuria, was signed here today. It consists of eighteen articles, is based upon the guarantee of Chinese sovereignty and fixes the principle of joint administration.

It provides for Chinese and Russian municipalities at Harbin and the participation of foreigners in the administration on an equality. The president of the Chinese Eastern Railroad is to act as referee for foreigners in all disputes arising. One clause of the understanding especially guarantees foreign interests.

The agreement is to become effective on condition that detailed administrative regulations be completed within one month.

## Desmond's

Cor. Third and Spring Streets. Douglas Building

THE KEYSTONE OF THE GREAT ARCH OF SUCCESS upon which this business is steadily rising is: The giving of value; the kind of value you want. It's good and solid; it will uphold any weight of business we can put on it; the more we add the more solid it becomes. We're building permanent trade on this keystone; value is something you appreciate; worth of your money; satisfaction made certain. It brings lots of trade here; and it keeps what comes. It ought to get yours; if it does, the merits of the goods, the methods of selling them, will keep it. You are invited to notice especially the SUITS FOR MEN AND YOUNG MEN WE OFFER AT

\$15 and \$20

If there is any one point more than another where our value idea comes in strong, it's in these suits and overcoats at \$15 and \$20. These prices are popular; they represent in this case the utmost possible merit in clothes.
